Correspondence to the public:
Why local government matters!

It is my opinion when we allow any form of government to function without checks and balances the taxpayers are the losers. That is not to mean we need to micro manage every decision but to question in writing to the decision makers your opinion in a respectable way. I have included a partial digital factual document on my experiences with our Watertown Township local government. I am including the following documents so the residents of Watertown Township can determine if the Manager and Township board are working in their best interest?
